Date: 13th, April 1981.

Dear Colleagues

We have seen a massive gathering, more than expected, on 5th April demonstration against the Nationality Bill. It was an expression of anger and abhorrence against the racist laws in particular, and against the virus of racialism rampant in this society in general.

From the composition of the participants on the demonstration it became obvious that the mobilisation on the part of the INDIAN WORKERS ASSOCIATION GREAT BRITAIN was exceptionally bigger than any other organisation. This time again we have shown that our association is the largest one among the other ethnic minority organisations—in terms of numerical strength, mobilising capacity as well as programmatic consistency.

In this campaign all the branches of our association, we are proud to state, have worked hard without which such a massive turn out on the demonstration could not be possible. Thus, our branches do deserve their share of credit and appreciation. We, therefore, on behalf of the centre committee, extend our heart-felt thanks to all those who put extra-ordinary efforts to make the demonstration successful.

PEOPLES MARCH FOR JOBS

I would like to draw your attention to the above stated Peoples March. The purpose of the march is to mobilise public opinion and to express total opposition against the scandalous un-employment situation which is causing untold miseries to the people of this country. The jobless black people are the worst sufferers with no prospects for jobs at all in the near future. As we are a part and parcel of the working class our association should always be seen actively supporting its cause by every possible means IN AN ORGANISED WAY.

So, we call upon and urge the Executive Committee members of all the branches along with other activists to do whatever is humanly possible to make the march successful and let our presence be felt. The IWAGB branches of those towns through which the march is to pass, have a lot of extra work to do in this regard. The other branches should help them. The map being enclosed herewith, indicates the route of the march.

It is hoped that you will comply with this request.

Yours Sincerely

N.S. Noor
N.S. NOOR
